

On/Off switch  
model 4003/1N

60 min timer  
model 4003/2N

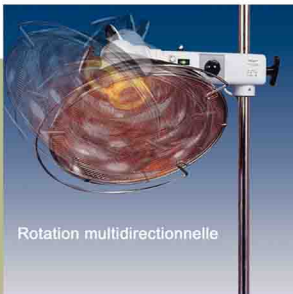

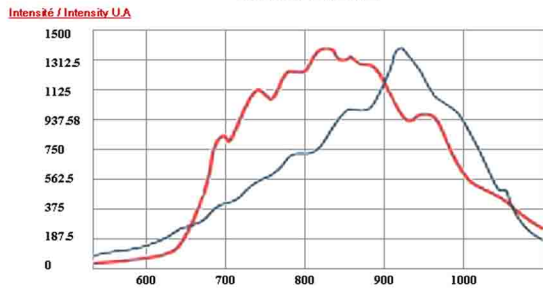

Electronic dimmer  
model 4003/1R

The Thermo Quartz lamp is both functional and high-performance. Its Quartz burner is of a tried and tested quality and has been especially designed for this lamp. It integrates a resistance which provides homogeneous calorific power. Available in different configurations, the 4003 infrared lamp is adapted to all specific physiotherapists's requests.

**Most common applications:**

- Physiotherapy, rehabilitation
- Heating purpose for specific medical interventions
- Muscle and arthritis pain relief

**IR Spectrum  
Circline 1001N**

Rotation multidirectionnelle

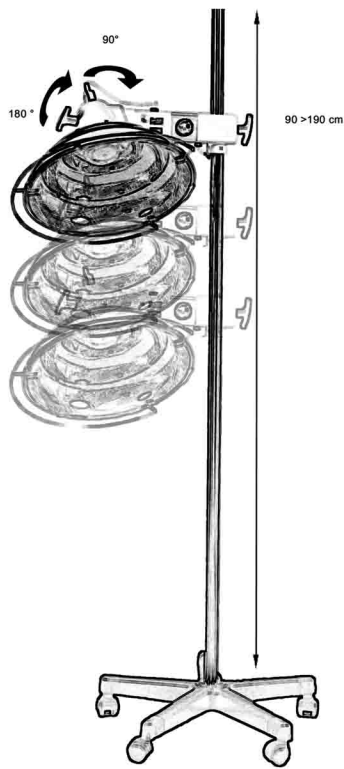

multidirectional rotation

Adjustable height fixation

Circline thermo quartz 400 W

**Technical features**

- Heating source : circline thermo quartz 400W
- Main equipment: 4003/1N: On/Off switch  
4003/2N: On/Off switch + 60 minutes timer with auto stop  
4003/1R: On/Off switch + electronic dimmer from 10 to 400W
- Voltage : 220-240V/50-60HZ fuses-holders on the lamp body
- Range : 700 mm, adjustable height from 90 to 190 cm
- Dimension and weight : height: 1900 mm, weight: 10 kg
- Power : 400 W +/- 10%
- Cupola diameter : 400 mm
- Quartz burner's life : 1000 hours
- Coating: oven baked epoxy painting
- Class and electrical type : class I, type B

**CE** EN 60-601-1: security for medical devices  
EN 60-601-1-2: electromagnétique compatibility of electrical medical devices  
complies with the European standards of EEC 93/42 directive
